

## **What is Money Energetics®?**

*Money Energetics®* is an exciting expansion of life as you know it! *Money Energetics®* is my own unique creation of energetic processing which was until now only available at my courses and one-on-one wealth alignment sessions.

*Money Energetics®* is a tried and tested way of shifting beliefs, attitudes and emotions - *on the level on energy* - creating profound and miraculous seeming results. I created *Money Energetics®* to help others expand their relationship to wealth with the intent of expanding consciousness and joy on our planet.

*Money Energetics®* refers to the energetic matrix of money. It is that complex collection of beliefs, attitudes, emotions, and habitual actions that create an energetic pattern that informs and directs the flow of money either away or towards us.

*Money Energetics®* Processing will help you discover your own unique pattern; transform what no longer serves; and re-align the pattern, enabling expansion of self and wealth. Working with money and its creation energetically, using creative and holistic tools and processes, means that results too are holistic - every area of your life is enhanced and improved.

*Money Energetics®* Processes provide a practical way to transform the energy under-pinning our beliefs, attitudes and thinking thereby changing our relationship to self and wealth simply and effortlessly.

The good news is, that with the help of this book and companion *Money Energetics®* Processing MP3 (available on my website) - anyone can do it!

## **The Money Alchemy™ work**

Let me start by telling you a little about this work. For the past decade I have worked with people in one-on-one wealth alignment

sessions as well as on many courses with the intent of helping them expand wealth and self.

Using an unusual combination of practical money making and life experience, creative type exercises, and my unique *Money Energetics*® processes, I have helped others transform their relationship to money, and so enjoy greater flow of wealth and happiness, as well as exponentially expand their businesses.

My first three books (and corresponding courses) began this journey of wealth transformation by creating a shift in thinking about money and the way it should be approached. I will tell you a little about them here, as this work builds on itself. It is useful to be aware of how and what we are building, both for those familiar with this work, and for those new to it.

### ***Money Alchemy*™, *Money Well*® & *Wealth Journey* Books & Courses**

The creative processing in '*Money Alchemy : Into wealth & beyond*' helps you discover and transform beliefs and attitudes about wealth, create new ways of thinking, and focus your intent. *Money Alchemy* begins the journey of energetic wealth creation and starts to hone your skill in working with creative and holistic tools of transformation. In this way, you open the door to working with non-visible reality. This is a must-do beginning for this work.

In '*Money Well : How to contain wealth*' you learn how to contain wealth, what it means to contain, and how to transform leaks and obstacles to wealth flow. This is an invaluable pre-cursor to the *Money Energetics*® Processing.

*Money Well* and working with the container metaphor is my signature approach to wealth creation. It's the one book I would recommend above all the others, for the far reaching transformational effect the approach and processing it contains can produce.

*'Wealth Journey : 9 Steps to a wealthier you'* helps you discover the qualities you need to cultivate in order to progress along the wealth path, and shows you how to transcend wealth challenges and detours. *Wealth Journey* is a wealth creation map helping you from level to level along the path from 'where you are' to 'where you are going', also dealing with 'why you are not there' and 'what to do once you get there'.

*Wealth Journey* stands alongside the other books as an invaluable guide when the way becomes unclear, when one is stuck and when in transition. Although it is a book for the more seasoned wealth traveller, all my books stand alone and can be read in any order.

## **Working Energetically on Wealth Creation**

*Money Energetics*® work is 3 dimensional and therefore not easy to explain through writing which is straight and linear.

It's a little bit like this:

On the one hand and maybe in one corner of a triangle you have tangible reality - which is not to be forgotten or ignored. A lot of the *Money Well* book deals with this - there are things to be done in physical reality, cycles to be completed, steps to be taken on the path to wealth creation, which are also covered in *Wealth Journey*. Then on the other side of the triangle you have non-ordinary, creative reality. The reality you need to open yourself up to in order for money to flow. This is the reality around money which is introduced in *Money Alchemy* and later expanded upon in *Money Well*. Here you have creative ways of looking at and processing around money to uncover beliefs, attitudes, emotions below the level of consciousness in order to create a shift in thinking.

This shift in thinking is honed and practiced so that with time, you are able to approach problem solving using both left and right brain thinking. Even beyond that, the *Money Energetics*® work will help you resolve problems working energetically.

In *Money Alchemy* you learn to look at money as journey, relationship, teacher, process of transformation. This opens the doors of non-ordinary, non tangible reality. One doorway to this reality is image or symbol which you are introduced to in all my books and which you begin to use in your thinking and in the way you view the world.

### ***Money Energetics*® Processing**

In the *Money Energetics*® processing you practice this creative type of thinking using symbol further, and learn how to use symbol as container of emotion and energy. *Money Energetics*® forms the third, top point of the triangle and is the meeting point of right and left brain thinking opening the doorway to working with energy and its

transformation more directly.

In this energetic work, you transform energy from one state to another, and from one container to another. You enter the world of the non visible, and there you can change reality, allowing it as a result to manifest differently in the physical world. This will reflect in a downward point of a fourth triangle beaming down from the third becoming grounded in three dimensional reality. So our triangle is actually a pyramid. If you cannot relate to, or understand any of this right now - it does not matter. Read on, do the work on the *Money Energetics*® MP3 and allow the results to unfold!

## **Rational, Creative & Energetic combine to Expand Wealth**

So we have rational left brain thinking which is linear and gives the facts in ordinary (visible) reality. We have (more) creative right brain thinking which is intuitive, symbolic and gives the facts in non-ordinary (semi-visible) reality. Then we have *Money Energetics*® where we work energetically in non-visible, non-ordinary reality to transform ourselves and the world around us using holistic tools.

We allow the ordinary & non-ordinary facts discovered through enquiry using left and right brain thinking and processing, to lead us, using symbol (and professional guidance) to the non-visible world underpinning left & right brain reality.

There, in the land of non-ordinary reality (also known as the land of imagination - which does not mean it is not real), with skill developed in working with symbol and image (right brain processing), and professional guidance, we transform, on the level of energy - emotions, obstacles, beliefs, thoughts, that present themselves for transformation in accordance with the intent set at the beginning of the session. Read that again.

This is the work you will be guided to do on the *Money Energetics*® Processing MP3.

# Money and Energy

## **Basic Assumptions: Everything is Energy**

What you need to know, to do the *Money Energetics*<sup>®</sup> work is really very simple. ...
